---

Shawn,  
Check and see if the new ADEQ standard for PCP is still lower or higher than EPA's standard.

Also, Mr. Grisham submitted a FOIA request and asked for e-mails between you and Mckesson. You did not provide that information. You need to setup a folder or file and put all of your e-mail between you and Mckesson and make them available to Mr. Grisham on Tuesday (the day before the meeting) when he is in the office to conduct a file review. CAS

Ms. Harrelson:

Thank you for your reply to my email to Ms. Hynum and the attached summary of the water quality standard issues involving PCP in the New Cricket Spring. I will share the attachment with our technical staff, and if I have any questions, I will contact Ms. Jamie Ewing. Thank you in advance for the participation of ADEQ staff in the meeting with Mr. Grisham on Wednesday, November 9, 2011. I will email an agenda on Tuesday afternoon, November 8, 2011.

Thank you,

Gloria Moran

Ms. Moran,

I am Chief Counsel with ADEQ and am responding on behalf of Tammie Hynum. Tammie has been unavailable most of the day and asked that I follow up with you. Please find attached a summary of the water issues prepared by the Water and Haz Waste Divisions in the Department.

In response to your question regarding attendees, I expect that several technical and management members from Haz Waste will attend as will someone from Water and one or two attorneys. The lead attorney on this project is Jamie Ewing. If you have any further questions, please feel free to give her a call at (501) 682-0918.

**Subject:** Arkwood Inc. Superfund Site - ADEQ Water Quality Standards for PCP

Hello Ms. Hynum:

I am the Region 6 attorney assigned to the Arkwood Inc. Superfund Site, Omaha Arkansas. Region 6 will be meeting with Curt Grisham on Wednesday, November 9, 2011 in our Dallas office to discuss the Arkwood Inc. site. As you are aware, the groundwater treatment system at the site is ongoing. Mr. Grisham has expressed that the "water quality standards for New Cricket Spring, near the Arkwood site are too stringent." He is seeking a re-evaluation of the standards for Pentachlorophenol (PCP) in the New Cricket Spring.

I am advised that Mr. Grisham has contacted you to discuss the water quality standards for PCP for New Cricket Spring. I would greatly appreciate a summary of your opinion concerning the PCP water quality standards in New Cricket Spring near the Arkwood site. Also, will you or another designated ADEQ employee be participating in the meeting with Mr. Grisham on Wednesday via video conference or phone conference?

Thank you in advance for your reply to this email.
